

Welcome to

Laker Mail

**A New Email Service in Collaboration with Microsoft
Providing LSCC Students a Free, Convenient,
Consistent, and Fast Communication Medium.**

How to access your personal LakerMail account:

- The “LakerMail” button on LSCC’s website home page takes you directly to the LakerMail page, providing the information and the links to get started. You can also directly link the page at: www.lsc.edu/email. The site also contains LakerMail features, rules and guidelines, and frequently asked questions.
- Before using this account, you must retrieve your assigned LSCC email address that contains your first and last name and ends with “@student.lsc.edu” (example: John.Doe@student.lsc.edu).
 - 1) Log into your LOIS account.
 - 2) Select the “Personal Information” tab.
 - 3) Select “View My Email Addresses” to see your LakerMail address.
 - 4) Activate your LakerMail account. You must activate, before gaining access.
 - 5) At the Microsoft sign-in page, enter your new LSCC email address and temporary PIN - your six-digit birth date (MMDDYYYY).
 - 6) You will be asked to change this PIN and create a security question and answer for future access.

**Please start using your LakerMail email account immediately,
as it will eventually become the “official” means of communication
between LSCC students, faculty, and staff.**

Attention students who are taking classes using **Blackboard** as a part of the classroom instructional mode. LakerMail will **not replace** the email component used to turn in classroom assignments or to communicate with faculty and classmates. Instructors have the discretion as to how to incorporate LakerMail.
