BLUE CROSS AND BLUE SHIELD OF FLORIDA MEDICATION GUIDE

JANUARY 2007

BlueCross BlueShield
of Florida
Health Options®

Health Options and its Parent, Blue Cross and Blue Shield of Florida, are Independent Licensees of the Blue Cross and Blue Shield Association.

INTRODUCTION

Blue Cross and Blue Shield of Florida and Health Options, Inc. is pleased to present the 2007 Medication Guide. The Medication Guide includes an abbreviated listing of Brand and Generic Prescription Drugs that may be covered under your plan. Please refer to your Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program Endorsement for complete coverage details. This Guide may also be available to you by visiting www.bcbsfl.com or by calling the customer service number listed on your identification card. For the hearing impaired, call Florida TTY Relay Service 711.

We reserve the right to add or remove or change the tier of any prescription drug in this Medication Guide at any time.

Note: The decision concerning whether a Prescription Drug should be prescribed must be made by you and your Physician. Any and all decisions that require or pertain to independent professional medical judgements or training, or the need for, and dosage of, a Prescription Drug, must be made solely by you and your treating Physician in accordance with the patient/Physician relationship.

PREFACE

PREFERRED MEDICATION LIST

The Medication Guide includes the list of prescription drugs, insulin, and diabetic supplies that reflect the current recommendations of the Blue Cross and Blue Shield of Florida and Health Options, Inc. Pharmacy and Therapeutics (P&T) Committee. This list is the Preferred Medication List. Currently, all covered Generic Prescription Drugs are considered “preferred.” There are no Non-Preferred Generic Drugs at this time.

You may pay a lower amount for Brand Prescription Drugs on the Preferred Medication List than for Brands not on the list. For your out-of-pocket expenses to be as low as possible, please consider asking your Physician to prescribe Generic Drugs, or if necessary, Brand Prescription Drugs on the Preferred Medication List whenever appropriate.

PHARMACY BENEFIT PROGRAMS

Please refer to your Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program Endorsement to understand which prescription benefit program you are enrolled in.

2 TIER BENEFIT

Tier 1: Generic Prescription Drugs whether listed in this Medication Guide or not.

Tier 2: Brand Prescription Drugs whether listed in this Medication Guide or not.

3 TIER BENEFIT

Tier 1: Generic Prescription Drugs whether listed in this Medication Guide or not.

Tier 2: Brand Prescription Drugs listed on the Preferred Medication List.

Tier 3: Brand Prescription Drugs not listed on the Preferred Medication List.

Newly marketed Brand Prescription Drugs are on tier 3, but will be reviewed by the P&T Committee for possible addition to the Preferred Medication List.

To save the most money on prescription drugs, take this Medication Guide with you each time you visit your physician. Consider asking your physician to prescribe drugs on the Preferred Medication List, if appropriate. When you have your prescriptions filled, ask your pharmacist if a generic drug is available. Generic drugs save you the most money.

The tier level of a Brand Prescription Drug included on the Preferred Medication List may increase (change from tier 2 to tier 3) when an FDA approved bioequivalent Generic Prescription Drug becomes available.

GENERIC ONLY PRESCRIPTION DRUG BENEFIT

Certain pharmacy benefit plans do not provide coverage for Brand Prescription Drugs. Please refer to your Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program Endorsement to verify if your plan provides this coverage.

USING THE MEDICATION GUIDE

The Preferred Medication List is organized into broad categories, e.g., Anti-infective Drugs. Within most categories, drugs are sub-grouped by drug class e.g., penicillins, or use for a specific medical condition, e.g., Diabetes.

Generic Prescription Drugs are shown in lowercase boldface type followed by a reference brand (in parentheses) to assist in product recognition. Some generic products have no reference brand. Brand reference drugs typically are 2nd tier in the 2 Tier Benefit and 3rd tier in the 3 Tier Benefit.

Example: **lovastatin** (Mevacor)

Because most prescriptions are written for the brand drug even when generics exist, we have included many highly prescribed brand drugs (in parentheses) when generics exist, followed by the generic name in bold.

Example: (Mevacor) **lovastatin**

Brand Prescription Drugs are shown in capital letters.

Example: NEXIUM

Separate drug entries are required for some dosage forms or routes of administration including extended-release, delayed-release, rectal, injectable, otic, ophthalmic, vaginal, nasal, orally disintegrating, patches, and topical products.

Example: **estradiol patches** (Climara)

estradiol tabs (Estrace)

KEY	
caps	capsules
chew tabs	chewable tablets
crm	cream
delayed-release	enteric coated
ext-release	extended-release
inj	injection
lotn	lotion
neb	nebulization
oint	ointment
PA	prior authorization required
Resp Rx	Responsible Rx – quantity limit applies
SI	self injectable drug program
soln	solution
supp	suppositories
susp	suspension
tabs	tablets

COST INDEX

Dollar signs are based upon Average Wholesale Price (AWP) or Maximum Allowable Cost (MAC) and range from one (\$) to five (\$\$\$\$\$), ranking drugs from least to most expensive. Within the same dollar sign, drugs are listed alphabetically. Dollar signs for maintenance drugs are typically based upon a 30 day supply at a commonly prescribed dosage. For drugs not taken 30 days per month, a more appropriate basis is used to determine dollar signs.

\$	\$20.00 or less
\$\$	\$20.01 to \$40
\$\$\$	\$40.01 to \$80
\$\$\$\$	\$80.01 to \$160
\$\$\$\$\$	More than \$160

GENERIC DRUGS

Blue Cross and Blue Shield of Florida and Health Options, Inc. encourages the use of Generic Drugs as a way to provide high-quality drugs at reduced cost. Generic Drugs are as safe and effective as their Brand Name counterparts, and are usually less expensive.

A Food and Drug Administration (FDA) approved generic drug may be substituted for its Brand Name counterpart because it:

- Contains the same active ingredient(s) as the brand drug
- Is identical in strength, dosage form, and route of administration
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile

For members with the 3 Tier Benefit, Preferred Brand Drugs listed typically move from tier 2 to tier 3 after a generic equivalent approved by the FDA becomes available.

PRIOR AUTHORIZATION

Drugs selected for Prior Authorization (**PA**) may require that specific clinical criteria are met before the drugs will be covered under a member's prescription benefit. The following drugs, and generic versions if available, may be subject to PA as of January 1, 2007. If a drug has a generic version, the generic name is shown in parentheses. All generics are a tier 1. Drugs on the Preferred Medication List that may require PA for coverage are designated with "**PA**" following the product name.

Note: Not all drugs on the following list are on the Preferred Medication List. This list is subject to change.

Aranesp	Intron A	Nutropin AQ
Arixtra	Iplex	Procrit
Eligard	Kineret	Raptiva
Enbrel	Leukine	Revatio
Epogen	Lovenox	Roferon-A
Forteo	Lupron (leuprolide)	Saizen
Fragmin	Lupron Depot	Serostim
Genotropin	Neulasta	Tev-Tropin
Geref	Neumega	Vidaza
Humatrope	Neupogen	Xolair
Humira	Norditropin	Zorbtive
Increlex	Nutropin	

RESPONSIBLE RX PROGRAM

Drugs included in this program allow a maximum quantity per one month for one co-payment. Quantity limits are typically developed based upon FDA-approved drug labeling. The following drugs have quantity limits as of January 1, 2007. This list is subject to change. These drugs are designated in the Preferred Medication List with "**Resp Rx**" following the product name.

Medication	Dispensing Limit per 30 days unless noted
Amerge tabs, 1 mg	18 tabs
Amerge tabs, 2.5 mg	9 tabs
Anzemet tabs, 50 mg	14 tabs
Anzemet tabs, 100 mg	7 tabs
Axert tabs, 6.5 mg	24 tabs
Axert tabs, 12.5 mg	12 tabs
Cesamet caps, 1 mg	56 caps
Emend caps, 80 mg + 125 mg	1 - 125 mg cap + 4 - 80 mg caps every 21 days
Frova tabs, 2.5 mg	12 tabs
Imitrex inj, 4 mg/syringe	12 syringes
Imitrex inj, 6 mg/syringe	8 syringes
Imitrex inj, 6 mg/vial	8 vials
Imitrex nasal, 5 mg	36 spray units
Imitrex nasal, 20 mg	9 spray units
Imitrex tabs, 25 mg	36 tabs
Imitrex tabs, 50 mg	18 tabs
Imitrex tabs, 100 mg	9 tabs
Kytril tabs, 1 mg	14 tabs
Maxalt, Maxalt MLT tabs, 5 mg	24 tabs
Maxalt, Maxalt MLT tabs, 10 mg	12 tabs
Migranal nasal, 4 mg per ampule	4 ampules
Relenza powder for inhalation, 5 mg	1 pack of 20 inhalation disks every 6 months
Relpax tabs, 20 mg	12 tabs
Relpax tabs, 40 mg	6 tabs
Tamiflu caps, 75 mg	1 pack of 10 capsules every 6 months
Tamiflu oral susp, 12 mg/mL	3 bottles of 75 mL every 6 months
Zofran, Zofran ODT tabs, 4 mg	42 tabs
Zofran, Zofran ODT tabs, 8 mg	21 tabs
Zomig nasal, 5 mg	9 spray units
Zomig, Zomig ZMT tabs, 2.5 mg	18 tabs
Zomig, Zomig ZMT tabs, 5 mg	9 tabs

SELF-ADMINISTERED INJECTABLE DRUGS

The following list of self-administered injectable drugs may not be included in your pharmacy benefit program. Please refer to your Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program Endorsement or call the number on your member ID card for more information. Self-administered injectable drugs are designated in the Preferred Medication List with "**SI**" following the product name. If a drug has a generic version, the generic name is shown in parentheses. All generics are tier 1.

Note: Not all drugs on the following list are on the Preferred Medication List. This list is subject to change.

Actimmune	Geref PA	Norditropin PA
Aranesp PA	Glucagon Emergency Kit	Nutropin PA
Arixtra PA	Humatrope PA	Nutropin AQ PA
Avonex	Humira PA	Pegasys
Betaseron	Imitrex	Peg-Intron
Calcijex (calcitriol) 1 mcg/mL	Increlex PA	Procrit PA
Calcijex 2 mcg/mL	Innohep	Prostigmin
Copaxone	Intron A PA	Raptiva PA
DDAVP (desmopressin) 4 mcg/mL	Iplex PA	Rebif
D.H.E. 45 (dihydroergotamine)	Kineret PA	Roferon-A PA
Eligard PA	Leukine PA	Saizen PA
Enbrel PA	Lovenox PA	Sandostatin (octreotide)
EpiPen	Lupron (leuprolide) PA	Serostim PA
EpiPen Jr	Lupron Depot PA	Somavert
Epogen PA	methotrexate	Tev-Tropin PA
Forteo PA	Miacalcin	Vidaza PA
Fragmin PA	Neulasta PA	Xolair PA
Fuzeon	Neumega PA	Zorbtive PA
Genotropin PA	Neupogen PA	

FORMULARY ADDITION REQUEST

Physicians may request that the Pharmacy and Therapeutics Committee consider the addition of a drug to the Preferred Medication List by submitting a written request to Blue Cross and Blue Shield of Florida and Health Options, Inc. All formulary requests will be brought to the P&T Committee for consideration.

Please mail to:

Blue Cross and Blue Shield of Florida and Health Options, Inc.

Attn: Pharmacy & Therapeutics Committee

NON-PREFERRED BRAND NAME PRESCRIPTION DRUGS AND POSSIBLE PREFERRED ALTERNATIVE(S)

In the event you are prescribed a Prescription Drug that is not preferred, we have included a list of possible preferred alternatives that your Physician may prescribe if appropriate. Please speak with your Physician concerning whether alternatives are appropriate for you.

Non-Preferred Brand drugs that are available generically are followed by the generic drug in parentheses. Alternative drugs are listed for Non-Preferred Brand drugs that are not available generically. The decision concerning whether a Prescription Drug should be prescribed must be made by you and your Physician. Any and all decisions that require or pertain to independent professional medical judgements or training, or the need for, and dosage of, a Prescription Drug, must be made solely by you and your treating Physician in accordance with the patient/Physician relationship.

These drugs are some commonly prescribed Brand Drugs. Your prescribed Brand Drug may not be listed; however, it still will be covered if it is not excluded by your plan. Refer to your Policy, Benefit Booklet, Certificate of Coverage or Pharmacy Program to determine if a particular Prescription Drug is covered.

There are no Non-Preferred Generic Prescription Drugs at this time.
This is only a partial listing of Non-Preferred Brand Name Prescription Drugs.

Non-Preferred Brand Medication	Possible Preferred Alternative(s)
Accupril (quinapril)	
Ambien, Ambien CR	temazepam, triazolam, Rozerem
Atacand	Cozaar, Diovan, Micardis
Avalide	Diovan HCT, Hyzaar, Micardis HCT
Benicar	Cozaar, Diovan, Micardis
Boniva	etidronate , Actonel, Fosamax, Fosamax Plus D
Celebrex	diclofenac sodium, etodolac, ibuprofen, meloxicam, naproxen, oxaprozin
Climara (estradiol transdermal)	
Concerta	methylphenidate ext-release , Adderall XR
Crestor	lovastatin, pravastatin, simvastatin , Lipitor
Detrol	oxybutynin , Detrol LA, Ditropan XL, Oxytrol
Flonase (fluticasone)	
Glucophage (metformin)	
Glucophage XR (metformin ext-release)	
Glucotrol XL (glipizide ext-release)	
Glucovance (glyburide/metformin)	
Lescol, Lescol XL	lovastatin, simvastatin, pravastatin , Lipitor
Lotensin (benazepril)	
Lotensin HCT (benazepril/hydrochlorothiazide)	
Lunesta	temazepam, triazolam, Rozerem
Mobic (meloxicam)	
Monopril (fosinopril)	
Ocuflox (ofloxacin)	
Pravachol (pravastatin)	
Prevacid	omeprazole , Aciphex, Nexium
Prinivil (lisinopril)	
Proscar (finasteride)	
Protonix	omeprazole , Aciphex, Nexium
Rhinocort Aqua	fluticasone , Nasonex
Zocor (simvastatin)
